

AUTO FLOOR GUARD

AutoFloorGuard containment mats are the best and easiest way to keep your garage floor clean. Our containment mats stops just about anything liquid spilled, leaked or dropped from your car from damaging your garage floor! And when you are ready to clean simply pull the parking mat over the garage threshold and either sweep or hose down the mat.

AutoFloorGuard get's delivered and in five minutes it's ready to use! Now park your car, motorcycle, lawn equipment or even change the oil and not worry about any dirt, grime, fluids, mud or snow getting onto your garage floor then getting into your house, thanks to our long lasting garage floor mat protection.

AutoFloorGuard has so many uses. It does not matter whether you are a classic car guy and want to work on your new hot rod and not worry about fluids leaking or moisture coming up from concrete slab or you live in the North and do not want the snow, ice and mud to be all over your floor and then it comes into your house! AutoFloorGuard garage floor mats protect your investments.

AutoFloorGuard now offers THREE quick ship products: Compact size AFG (7'9" X 16') for those compact cars; Mid-Size AFG (7'9" x 18') for Sedans and smaller SUV's; SUV/Truck size AFG (8'6" x 20') for full size SUV's and many size trucks that need that extended length. AutoFloorGuard can also create a Custom Sized Floor Guard to fit your specific situation.

Heat-Sealed Watertight Seams:

ALL AFG seams are reinforced and thermal welded to provide durability and longevity.

Build-in Containment Edge:

ALL AutoFloorGuards use a closed 1.18" cell foam edge material (will not absorb moisture) that will work in all temperature environments and will endure tire traffic. Competitors that offer plastic edge pieces may become brittle and crack when exposed to extreme cold temperatures.

Rectangle design:

ALL AutoFloorGuards were designed to allow more room in the corners for water, mud, oil, snow or any other liquid drip to be captured. It also makes it easier when pulling the mat over the garage threshold to clean.

Ready to Use:

ALL AutoFloorGuards were designed with simplicity in mind. Your garage floor mats come pre-assembled and ready to use. Just open box, remove, roll out and use! That is it. You do not have to have all the parts all over trying to figure out how to clip the plastic onto the mats and to also make sure you do not leave any gaps so spills or liquid won't leak out. When the season is done or your restored car is ready for the road simply clean your AFG, let dry and roll up for next year or your next project.
